Joint Action Committee for Political Affairs (JACPAC) is a pro-Israel PAC with a domestic agenda. We support a strong U.S.-Israel relationship and advocate for reproductive health and the separation of religion and state and incorporate other issues of importance to the Jewish community, including gun violence prevention and climate change. In addition to providing financial support for U.S. Senate and House campaigns, JACPAC educates our membership with outreach events designed to inform and activate their participation in the political process.
